LOWER STEPS FENCE - Monterey Blvd

Original chain-link fence, with poster sharing contact info for group, one of many ways we've reached out to the community.

Updated fence, which Archway will connect to

COMMUNITY ENGAGEMENT

Community Outreach

Since the end of 2019, the Detroit Steps Project (DSP) has presented at Sunnyside Neighborhood Association meetings that are held quarterly. We regularly receive feedback from the community. To ensure we are reaching and engaging members of the community who may not attend those meetings, we have created letters explaining who we are, design drafts for the archway and an invitation to join, share input and feedback for residents living along the Detroit Steps, where the archway will go. We also participate by sharing updates/volunteer opportunities with local elementary schools, Sunnyside Elementary School and St. Finn Barr. We set up an information table at other community events-such as the Hearst Slow Street block party. In addition, we've included Riordan High School has design event posters and CCSF horticulture class submitted plans for landscaping along the steps. We have a google group for those who would like to volunteer, receive updates or share input or feedback. This is shared via quarterly neighborhood zoom meetings, in letters to local residences, at public events and at events held at the steps.

An area that was once an eyesore that attracted dumping and illegal activity has been altered with beautiful, inviting fencing and we hope, soon an archway to decorate and celebrate our neighborhood. The final phase to come after the archway is tiling of the steps. So far, the response from the community for this final design has been very positive!
